DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- a. Group I, claim(s) 1-18, drawn to a filling process and apparatus.
 - b. Group II, claim(s) 19-21, drawn to a pliable container.
2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The invention set forth in group I, generally claims a duct which is comprised part of a container used for filling on an apparatus set forth in the claims. The process and apparatus claims do not set forth the inventive concepts set forth in claims 19-21. The container set forth in these claims utilizes a first segment, a second segment adjoining the first segment, a third segment adjoining the second segment, which further comprises an inlet.

For this reason, restriction is proper.
